

Battery Abuse Testing

Millbrook currently offers all Reg100 and a range of UN38.3 tests, and has plans to offer all UN38.3 tests in 2019. Capability includes destructive testing on site.

Millbrook routinely tests all major Lithium-ion chemistries and plans to expand this capability to cover most other chemistries in 2019.

Applications:

- Vibration
- Mechanical crush, impact and shock
- Thermal shock and cycling
- Drop
- Immersion
- Penetration
- Fire resistance
- Over discharge
- Over charge
- Over temperature
- Short circuit
